 101 Main St	One story brick building.	Commercial Business: Equinox Broadcasting	
 102 Main St	A two-story, vinyl sided residence with a cross-gabled roof. The windows have been replaced. A modern gabled entry stoop has been constructed on the facade and an oversized garage has been attached on the east side.	Residential	Contributing building in proposed National Register Historic District.
 104-106 Main St	A large, shingled, multiple-family residence with a hipped roof and hipped dormers. On the facade, there are two mirror image porches; each with square posts set on enclosed railings. Exterior stairs descend from each of the dormers onto the porch roofs. Most windows are 1/1.	Residential	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 107 Main St	Your Home Library - 1885 and 1920 - T.I. Lacey, architect, designed the 1885 brick Queen Anne residence. The house has a hipped and gabled roof with gabled dormers. A tower, with an octagonal roof, is centered on the facade. The house was purchased by Endicott-Johnson Company in 1917 and converted into a public library to serve the community. The sun porch was added soon after the building was purchased and the large, two-story, brick rear addition was designed in 1919 and constructed in 1922.	Library	Contributing building in proposed National Register Historic District. Cultural Institution
 110 Main St	This is a two-story, American Foursquare with a hipped roof and hipped dormers. The first story is brick; the second is sided with aluminum. A gabled porch spans the facade. The western half of the porch has been enclosed. The house sits on a rusticated concrete block foundation. Most windows are four-vertical panes over a single pane. There is a two story bay window on the east side of the house.	Residential	Contributing building in proposed National Register Historic District.
 114 Main St	This is a two-story, vinyl sided residence with a cross-gabled roof. There is an addition at the rear of the house. A modern, gabled entry stoop is centered on the facade. Most windows are modern 1/1.	Residential	Contributing building in proposed National Register Historic District.
 117 Main St	Endicott-Johnson Recreation Center - 1947 - Designed by A.T. Lacey & Sons, architects and constructed by Vincent J. Smith, Inc. contractors. This is a steel frame building with aluminum wall panels and barrel dome roof. The stairwells at the corners are masonry and glass block.	Commercial Business: J.H. Robotics	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 126 Main S	A modern commercial building.	Commercial Business: Knights of Columbus	Non-contributing building in proposed National Register Historic District.
 130 Main St	This is a two-story, cinder block commercial building with a flat roof with a tan brick facade. The windows on the second floor have been replaced. The display windows have been covered with board and batten.	Commercial Businesses: Norman Uniform; Lungton Computer Repair.	Contributing building in proposed National Register Historic District.
 131 Main St	Built in 1914, the St. James Roman Catholic Church is a tan brick, Romanesque Revival church designed by T.I. Lacey. Four-story bell towers flank the front facing gable of the cruciform building with rear apse. The roof is red tile. Large figurative stained glass arched windows are centered under each gable. There are Ionic columns supporting the arch in each opening of the bell towers. Between the columns are curved stone balustrades. Dentils and egg and dart moldings decorate the cornice. Modillions support the wide eaves. Doric columns are used at the entrances and the classical moldings are repeated along the entablature.	Church	Contributing building in proposed National Register Historic District.
 140 Main St	A two-story, stucco and shingle sided residence with a cross-gabled roof. There is a hipped dormer on the front. The wraparound porch has been enclosed.	Commercial Business: Myers Salon	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 <p>143 Main St</p>	The St. James Middle School – 1937 – St. James Middle School is a two-story, tan brick school building with a flat roof. The main entrance is recessed behind a Gothic arch. Centered above the entry is a cross that projects above the cornice. There is an addition on the east end of the building, which unbalances the originally symmetrical stepped back, five-bay facade. The windows, which are grouped, have been replaced. There is a large rear addition.	Church School	Contributing building in proposed National Register Historic District.
 <p>147 Main St</p>	The St. James Parish Office is a large, two-story, tan brick building with a hipped and cross-gabled roof. Some gables are clipped. There is a two-story bay on the facade. Most windows are 6/1; some are paired or grouped. They have stone sills.	Church Office	Contributing building in proposed National Register Historic District.
 <p>150 Main St</p>	A 2 1/2 - story residence with a front gabled roof that flares at the eaves. There are large gabled dormers on the west side. The front porch is sheltered under the main roof, which is supported by fluted colossal classical columns. There is a smaller second story porch suspended between the center two columns. One-story wings have been added on both the east and west sides and the building has been converted for use as a funeral home.	Commercial Business: J.F. Rice Funeral Home	Contributing building in proposed National Register Historic District.
 <p>155 Main St</p>	The St. James Rectory – 1950 – the rectory is a large, two-story, tan brick residence with a hipped roof with wide eaves. There are hipped dormers on the east, west and north sides of the building and a hipped bay on the facade. There is a stone cross applied to the stepped cornice of the front bay. Most windows are 6/1 and some are paired. The hipped roofed, brick entry porch is centered on the facade. Glass block windows enclosed the porch on the east and west sides. The paneled front door is flanked by sidelights. There is a two-story, three-bay garage with a flat roof behind the house.	Church	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 162 Main St	A modern store building.	Commercial Business: Village Coin Laundry	Non-contributing building in proposed National Register Historic District.
 167 Main St	A square, 2-story office building with a flat roof. The original, one-story building was constructed in 1930-31. It has a steel frame with brick curtain walls. The building has been enlarged and a second story has been added. The upper story is windowless. The windows on the first floor have been replaced with 1/1 double hung sash. There is a decorative pattern in the brick. The understated main entrance is located in the southwest corner of the building.	Industrial Business: Verizon Co-location	Contributing building in proposed National Register Historic District.
 176 Main St	A modern garage building.	Commercial Business: A&E Auto	Non-contributing building in proposed National Register Historic District.
 177 Main St	A 2-story, L-shaped cinder block building with brick veneer. The roof is flat. The building was constructed as an automobile sales and service center circa 1940. Except for the storefront on Main Street, it has been converted into apartments. The windows have been reduced in size and vinyl siding has been used as an in-fill material.	Vacant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 181 Main St	A rectangular, mid-20th century, 2- story, brick building with a flat roof. The building was constructed as an auto repair shop and retains the oversized overhead doors on the front facade. A small office has been constructed on the front facade at the west end of the building.	Commercial Business: Miller's Body Shop	Contributing building in proposed National Register Historic District.
 	A large, rectangular, 1-story, mid-20th century, cinder block commercial building with a flat roof. The only ornamentation is a stone veneer on the corners of the front facade. There are square, glass block windows on the east side of the building.	Commercial Business: Family Dollar	Contributing building in proposed National Register Historic District.
 190 Main St	A square, 2-story, early 20 th century residence that has been converted into offices. A large, rectangular, 1-story addition has been added to the east side of the house. The building has been sided with aluminum siding.	Commercial Business: Dental Offices of Drs. Marusich & Conti	Contributing building in proposed National Register Historic District.
 200 Main St	A large, rectangular, 1-story, cinder block building with a flat roof. It has been renovated a number of times, including major storefront changes made since 1979.	Vacant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 205 Main St	A large, 2-story brick apartment building with a rectangular, 2-story, modern, flat roofed commercial building added on the front facade. Imitation stone has been added around the storefront windows.	Commercial Business: The Gold Mine	Contributing building in proposed National Register Historic District.
 207-209 Main St	A large, 2-story wood frame residence that has been nearly concealed from the street by the 1-story, cinder block commercial building added to the facade. The commercial building has a brick veneer on the front. Originally four small storefronts, three of the four have been combined and converted into a restaurant.	Commercial Businesses: Reveille Restaurant; Peace Beauty & Wellness.	Contributing building in proposed National Register Historic District.
 214-218 Main St	A 2-story, tile commercial building with a flat roof constructed in 1923. The front facade is brick. There is a center entrance for the upper floor with a storefront on either side of the center stair hall. The storefront on the west side has been altered. The store window has been reduced in size and there appears to have been an attempt to create a Streamline Moderne storefront with the use of red Carrara glass on either side and stainless steel below the window. The entrance to the stair hall has also been altered. Only the glass transom remains.	Commercial, Residential Businesses: Healthbeat Natural Foods & Deli; Michelle Moelder, CN; Celeste Apartments.	Contributing building in proposed National Register Historic District.
 215 Main St	A modern one story building.	Commercial Businesses: Benza's Barbershop; Hip Hop Fashions.	Non-contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 219 Main St	A three-story apartment building. The upper floor is shingle and the lower two are a brick veneer. Open porches, one for each apartment, flank the front entrance. The building appears to have been damaged by fire and stands empty with most of the windows missing.	Vacant	Contributing building in proposed National Register Historic District.
 220 Main St	A mid-20th century, 1-story commercial building with a recessed entry. The building has a flat roof. Vertical boards replace the Carrara glass under the display windows.	Commercial Business: Kuda's Tavern	Contributing building in proposed National Register Historic District.
 222 Main St	This structure is actually twin buildings combined. They are the 1921 Hancock Block (east) and the 1922 Hancock Block (west). The buildings are tile with brick veneer fronts. The windows on the second floor have been removed and covered with plywood painted to resemble multi-pane double hung sash windows. The storefront of the 1921 buildings has been removed and replaced with modern display windows.	Commercial Business: Dollar General	Contributing building in proposed National Register Historic District.
 225 Main St	A long, narrow, 1-story, brick commercial building with a flat roof. The entrance is recessed. The original sign board was removed and a modern awning covers the space.	Commercial Business: Blue Wireless	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 229 Main St	Modern, one story commercial building.	Vacant	Non-contributing building in proposed National Register Historic District.
 233 Main St	The Ash Block. It is a large, 3-story, late-19th century, brick commercial building with a flat roof. The building has a prominent cast iron cornice and pediment displaying the name of the building. The storefront and the second story facade have been modernized. On the second story the original windows have been replaced with more modern tripartite windows and the brick facade has been covered with cast stone. The windows on the third floor have been replaced in the original openings. This is also the case on for the rest of the building.	Commercial, Residential Business: Halal Meats; Oriental Rugs; Apartments.	Contributing building in proposed National Register Historic District.
236 Main St	Parking lot.	Commercial Business: Vitali Automotive	
 237 Main St	A 3-story, brick commercial building constructed in 1902. It is one of the most intact early-20th century buildings in the central business district.	Commercial, Residential Business: Convenience Store; Apartments.	Contributing building in proposed National Register Historic District.
238 Main St	A 2-story, early-20th century, brick commercial building with a flat roof.	Commercial Business: Acme Cash Register Co.	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 239 Main St	A 2-story, brick commercial building constructed in 1904. It has a flat roof. There is an egg and dart belt course between the first and second floors. The molding is repeated along the frieze. Modillions support the cornice. The windows on the second floor have been modernized and a door, opening onto a small balcony, has been added between the windows. A prominent awning obscures the sign board and a second awning covers the upper half of the second story windows and door.	Commercial Business: Lofts Cards & Gifts	Contributing building in proposed National Register Historic District. Business not open regular hours.
 241 Main St	A small, 1-story, early-20 th century, commercial building with a flat roof. The display windows have been reduced in size and a permanent awning has been constructed across the facade.	Commercial Business: Shoe repair	Contributing building in proposed National Register Historic District.
 242 Main St	A 1-story commercial building with a flat roof.	Vacant	Non-contributing building in proposed National Register Historic District.
 243 Main St	A 3-story bank building with a flat roof. It was constructed in 1932 using a steel frame and tile and brick curtain walls. The front facade was dramatically altered in 1961.	Vacant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 246 Main St	A late-19th century, masonry, three-story commercial building. The original third story was removed sometime between 1967 and 1978. Since that time a wood-frame third story has been added. The windows and storefront have been modernized.	Commercial Business: Law Offices of Paul E. Pool	Contributing building in proposed National Register Historic District.
 247 Main St	A late-19th century, 3-story commercial building with a flat roof. It appears that multiple attempts have been made to modernize the facade. In the process two windows on the second floor have been covered over. Glazed panels cover much of the second and all of the third floor. Vertical boards have been used to update the storefront and part of the second story.	Commercial Business: Valley Forge Antiques	Contributing building in proposed National Register Historic District. Business not open regular hours.
 248 Main St	A turn-of-the 20th-century, 3-story commercial building with a flat roof. The late-19 th century brick facade has been hidden under flush panels of pale pink. The windows have been modernized. The area under and flanking the display windows has been glazed to resemble marble. The entry is recessed.	Commercial Businesses: Avant Garde Hair & Massage Therapy; Main St. Music Academy.	Contributing building in proposed National Register Historic District.
 249-251 Main St	A 3-story brick commercial building with a flat roof. The building, built in 1914, is the J.T. Bustin Block. The third story windows have been replaced and large awnings have been added on the first and second stories. The entry is recessed.	Commercial Businesses: 13 moons.com; Law Offices of Cenesky, Alenik, Stefanski and Gallagher.	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 250 Main St	A late-19th century, 3-story, brick commercial building with a flat roof. A cast iron pediment with a sunburst motif crowns the cornice. A picture window, centered on the second floor, replaces the original. Display windows flank the entry. A door to the stair hall is located on the west end of the facade	Commercial Business: Freshott Pizza	Contributing building in proposed National Register Historic District.
 252 Main St	A late-19th century, 3-story, brick commercial building with a flat roof. The brick facade was completely covered when the building was modernized. The upper story windows have been reduced to four small openings and the upper stories of the building have been covered with smooth panels framed with metal. Tiny tiles frame the display windows. The entry is recessed.	Commercial Business: Essential Hair	Contributing building in proposed National Register Historic District.
 253 Main St	253 Main Street - a 1-story, blond brick commercial building with a flat roof. It was constructed after 1931. Decorative detailing is limited to a stepped cornice, brick panels and a diamond pattern centered between fluted piers. The storefront windows, on the west side of the entry, have been reduced in size.	Vacant	Contributing building in proposed National Register Historic District.
 254 Main St	254 Main Street - an early-20th century, 3-story, brick commercial building with a flat roof. The symmetrical building was constructed with a center brick pier dividing the two mirror image bays. The decorative stepped cornice and the arched lintels of the third floor windows are intact, but all of the windows have been replaced and the storefront has been modernized.	Commercial Business: New Century China Restaurant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 256 Main St	A late-19th century, 3-story, commercial building with a flat roof. Modillions and dentils decorate the cornice. "Lambert Block" is written in block letters across the frieze. There are rows of dentils between the first and second and the second and third stories. The windows have been replaced with plate glass and the storefront has been replaced with glass blocks.	Commercial Business: Giblin's Tavern	Contributing building in proposed National Register Historic District.
 257 Main St	A 3-story, brick, early-20th century commercial building with a flat roof. The first story is cast stone. Built on the corner of Main Street and Avenue D, the building has entrances and large display windows on both streets.	Vacant	Contributing building in proposed National Register Historic District.
 258 Main St	A late-19th century, 3-story, brick commercial building with a flat roof and a bracketed cornice. A corner building, the storefront originally opened on both Main and Arch Streets. The Arch Street side has been covered. The windows have been reduced in size on all three floors, but the lintels remain.	Commercial Business: Sultan Sofresi Turkish Restaurant	Contributing building in proposed National Register Historic District.
 263 Main St	A triangular, late-19th century, 3-story, brick, Italianate commercial building with a flat roof. The third floor windows are arched with brick lintels and stone sills. Those on the second floor are rectangular with stone lintels and sills. There are storefronts on the east, west and south sides of the building.	Vacant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 265 Main St	The Rich Block - a late-19 th century, 3-story, brick commercial building with a flat roof. Located on a corner lot, the facade is cut on the diagonal and there is a three-story bay on the southeast corner. The storefront wraps around the corner. The 1/1 windows are rectangular on the facade and arched on the east side.	Vacant	Contributing building in proposed National Register Historic District.
 267 Main St	A 3-story, brick commercial building with a flat roof. A cast iron pediment with finial crowns the roof line. The date 1892 is stamped under a sunburst motif on the pediment. A 2-story, canted bay lights the second and third story rooms. The storefront was modernized.	Vacant	Contributing building in proposed National Register Historic District.
 266 Main St	A prefabricated steel diner manufactured by Mountain View Diner Company of Singac, New Jersey. The neon sign, including the robin, is original. It embodies the distinguishing characteristics of the streamline modern steel prefabricated diner which were based on railroad dining cars. The modern design was intended to be immediately identifiable with travel and food. The gleaming steel and smooth Formica were associated with cleanliness. The engineered restaurant was a vision of modern efficient design.	Commercial Business: Red Robin Diner	Contributing building in proposed National Register Historic District.
 269 Main St	A tiny, 1-story, mid-20th century, commercial, in-fill building with a flat roof.	Commercial Business: Traveling Scissors Hair	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 271 Main St	A 3-story, late-19th century, stuccoed brick, commercial building with a narrow tower on the southeast corner. The building has a flat roof. There is a decorative pattern in the brick on the tower and in a band above the windows on the second and third floors. Modern windows have replaced the originals. The arched openings above the rectangular windows on the third floor have been filled. The storefront has been modernized.	Commercial Business: IBEW Local 83	Contributing building in proposed National Register Historic District.
 272 Main St	A 1-story commercial building with a flat roof. The facade is glazed brick with a wide, recessed entry flanked by large display windows.	Vacant	Contributing building in proposed National Register Historic District.
 275-277 Main St	The former Endicott-Johnson Shoe Store, is a 3-story, late-19th century, painted brick commercial building with a flat roof. The decorative brick pattern used in bands on the building to the east is repeated on this building. Many of the windows have been filled and replaced with vents. The double storefront was modernized using wood shingles. A pent roof has been added between the first and second stories.	Commercial Business: Renaissance Flowers	Contributing building in proposed National Register Historic District.
 278 Main St	A one-story commercial building with a flat roof. Once a multistory building, the upper stories were removed circa 1950. The recessed entry is flanked by display windows.	Commercial Business: Fat Cat Comics & Games	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 280 Main St	A 3-story, late- 19th century, brick commercial building with a flat roof. A pediment, with finial, crowns the roof line. There is a sunburst motif in the pediment. A 2- story, canted bay lights the second and third story rooms. The storefront has been altered.	Commercial Business: Barbershop	Contributing building in proposed National Register Historic District.
 282 Main St	A 4-story, late-19th century, asymmetrical, brick commercial building with a flat roof. A 3-story, canted bay lights the second, third and fourth floor rooms. The windows have been replaced and the storefront has been modernized. The cornice has been removed.	Vacant	Contributing building in proposed National Register Historic District.
 284 Main St	A 3-story, late-19th century, brick commercial building with a flat roof. The cornice is decorated with modillions. A 2-story, canted bay lights the second, and third story rooms. The storefront has been modernized and an awning has been added. The parapet with the building's name has been removed.	Commercial Businesses: Baxter Traffic Safety Center; Vacant storefront.	Contributing building in proposed National Register Historic District.
 286 Main St	A 3-story, late-19th century, brick commercial building with a flat roof. The decorative brick pattern used in bands on the building to the west is repeated here, in the reverse direction. The original windows have been retained on the second floor. The windows on the third floor have been reduced in size, the decorative cornice has been removed, and the storefront was modernized.	Vacant	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 290 Main St	A 3-story, late-19th century, brick, commercial building with a narrow tower on the northwest corner. The building has a flat roof. There is a decorative pattern in the brick on the tower and in a band above the windows on the second and third floors. The storefront has been modernized. Modern windows have replaced the originals in all but the uppermost tier of the tower, and the decorative cornice has been removed.	Vacant	Contributing building in proposed National Register Historic District.
 296 Main St	A 3-story, late-19th century, brick commercial building with a flat roof. It is a corner building with entrances on both Main and Arch Streets. There are 2-story, canted bays on either side of the second and third story Palladian windows centered on the facade. The narrow cornice is decorated with dentils. There is a double row of corbel brick dentils below the cornice. There are two storefronts on Main Street. Both have been modernized. There is a wood frame addition at the rear of the building. It has been sided with vinyl siding. Vinyl siding has also been used as in-fill on the storefront on the southeast corner of the building.	Commercial Businesses: Thomas Agency Insurance; Vacant storefront.	Contributing building in proposed National Register Historic District.
 300 Main St	A tiny, one-story, in-fill commercial building with a flat roof.	Commercial Business: Tony's Texas Hots	Contributing building in proposed National Register Historic District.
301 Main St	A modern office building.	Commercial Business: Medical Offices	Non-contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 305 Main St	A three-story brick apartment building on a raised foundation. The building has a flat roof. The entrance has a gabled roof supported by colossal classic columns. The windows have been replaced.	Residential, multifamily	Contributing building in proposed National Register Historic District.
 307 Main St	One-story brick post office.	Post Office	Individually listed on the National Register of Historic Places.
 308 Main St	Sarah Jane Johnson Community House – 1925 - The two-story Gothic Revival building with a raised basement was built with Hummelstown brownstone. The building has a gabled roof. The upper windows are Gothic arches; the lower ones are rectangular.	Church	Contributing building in proposed National Register Historic District.
 314 Main St	314 Main Street – Sarah Jane Johnson Methodist Church - 1927 - The Gothic Revival church was built of Hummelstown brownstone, quarried at Hummelstown, Pa. The three-stage tower, 112 feet high, has an open belfry. In 1946 Carillon Bells, purchased in memory of those who served in the Armed Forces in World War II, were added to the tower. The main entrance to the church is located at the base of the tower. The church has a gabled roof with the gable end facing Main Street. A large central Gothic window dominates the Main Street facade. Pointed Gothic windows are placed between the buttresses on the side walls. Carved in a medallion above each window are symbols of the Christian faith.	Church	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 331 Main St	331 Main Street – 1919 - This large, two-story Colonial Revival residence was the home of Charles F. Johnson Jr. It has a truncated hipped roof and large dormers. There is a prominent brick chimney on the west side of the house. The roof of the curved front porch is supported by paired classical columns. There is a balustrade of turned spindles between the columns. A ramp for handicapped accessibility has been constructed on the east side of the porch. The windows are 6/1 and 8/1.	Commercial Business: NBT Bank.	Contributing building in proposed National Register Historic District.

Address	Description	Current use	Notes
 36 Willow St	The Goodwill Theater – 1920 – T-shaped in plan, the theater fills most of the lot. The building was designed in the Neoclassical style by the architectural firm of Lacey, Schenk and Cummings. It is a three story building on a concrete foundation. The steel and reinforced concrete structural system is faced with red brick, cut limestone and marble. The roof is flat and clad in a combination of shingles, tar and stone. The edge features terracotta coping.	Vacant	Individually listed on the National Register of Historic Places.
 40 Willow St	This is a large, two-story building with a hipped, gabled and gambrel roof. It is brick on the first floor and vinyl on the second. There is an ungainly two-story addition on the facade. On the second floor, small modern double hung sash windows replace the originals. The building appears to be a residence converted for use as a social hall.	Vacant	Contributing building in proposed National Register Historic District.
 42 Willow St	Built in 1935, this is a two story, three-bay, cinder block building with a brick facade. It has a flat roof. There is a large over-head garage door in the northern bay and there are two entry doors in the southern bay. On the first floor are large industrial windows with metal sashes; the second story windows are 1/1.	Vacant	Contributing building in proposed National Register Historic District.
 44-48 Willow St	The 1899 Johnson City Municipal Building and Central Fire Station. This three-story, brick Romanesque Revival building was constructed by the Endicott Johnson Company. Step gables hide the shallow cross-gabled roof. There is a Palladian window in the front gable. The other windows are 1/1 with stone lintels and sills. Centered on the third floor are two sets of paired window. Each pair has a roman arched crown with a key stone. There are four, large over-head doors on the facade to accommodate fire trucks.	Commercial Business: Goodwill Theater Firehouse Stage	Contributing building in proposed National Register Historic District. Cultural Institution
